What to Expect

Now is the time to prepare for strong tropical storm conditions according to your typhoon disaster plan specific to your home or business.

It is important to actively listen for forthcoming information from your local National Weather Service office and emergency management agency.

Prepare Now

The community is advised to take the following preparedness actions:

- Those living in flood-prone areas should take action; clear drainage areas and unblock storm drains to minimize flooding;
- Clear loose debris around your yard and store any items, such as tents and canopies, that may become airborne with heavy winds, before inclement weather arrives;
- Stay up to date with the latest information. The system track or intensity may change, and advisories may be issued;
- Locate or prepare your emergency preparedness kits for your household;
- Secure important documents such as birth certificates, tax papers, and insurance documents, and keep copies in a water-proof bag;
- Gas your vehicles and get fuel for your generators;
- Be prepared to take action if shutters are warranted;

- In COR 3, residents are asked to secure loose items in their yard including lawn furniture, and barbeque grills and trash cans.
