The position will begin on **February 03, 2021** and ends on **February 02, 2022** based on availability of funds with possibility of extension should additional funds become available.

Location:

Guam National Wildlife Refuge, Ritidian Point, Guam

Minimum Qualifications:

- Bachelor's degree in Biology, Environmental Science, Zoology, Ecology or related field;

- One (1) year experience relevant to the position **OR** combination of college credits, technical training, and/or substantial professional level of work experience;
- Must have a valid driver's license and passport;
- Must be able to pass background checks required for access to government computers and military facilities;

Character of Duties:

Biologists hired under this announcement will be part of the Brown Treesnake Project under the direction of U.S. Geological Survey scientists. Members of the project conduct high-quality research on biology, control, and containment of the brown treesnake, with the eventual goal of restoring native species. Offices and labs are at the Guam National Wildlife Refuge, Ritidian Point, Guam, and fieldwork is conducted primarily on northern Guam including on military lands, however, some fieldwork takes place in southern Guam and on Cocos Island. Project leaders are based at Guam National Wildlife Refuge and at the USGS Fort Collins Science Center.

Duties include:

- Conducting surveys for brown treesnakes and other species;
- Setting and checking traps and other control tools;
- Conducting capture, humane euthanasia, and necropsy of brown treesnakes and other species;
- Extensive error-free data collection, data entry, data proofing;
- Animal husbandry duties for reptiles, birds, and rodents;
- Conducting ecological experiments on various vertebrate species in the lab and in the field;
- Other duties as assigned;

Incumbents will become members of the Brown Treesnake Rapid Response Team and may be required to travel to other Pacific islands on short notice to participate in rapid responses to snake sightings.

Field conditions can be challenging, including extended periods of fieldwork in hot and humid conditions including continuing work during rainstorms; traveling over steep/rocky terrain while carrying equipment, exposure to biting/stinging insects, and handling snakes, rodents, and other animals that may bite. Safety is our highest priority and unsafe behaviors will not be tolerated.

Split shifts (such as work in morning, no work in the afternoon, then work at night), working the morning after working at night, and weekend work are common. Biologists hired under this announcement may become part of a four-person team camping on the remote islet Cocos Island for 4-10 days at a time. Thus, experience camping, backpacking, and working in remote locations is desirable.

Police and Court Clearance:

Pursuant to Public Law No. 28-24 and Executive Order No. 2005-34, applicants selected for a position are required to provide original police and court (Superior Court of Guam) clearances of no more than three (3) months old prior to commencement of employment. Off-island applicants must obtain clearances from their place of residence. Applicants are responsible for fees associated with obtaining the clearances

Selected candidate must provide official transcripts prior to hire date.

Work Eligibility:
